## The Ward Meetings.

The ward meetings in this city last night to nominate candidates for aldermen passed off quietly and harmoniously. The first ward nominated the present incumbents, Messrs. Merrimon and Pickard.

The second ward nominated Messrs. W. B. Bogart and the present Alderman Frazier.

The third ward nominated the present incumbents, Messrs. Ellington and McKinney.

The fourth ward nominated the present incumbents, Messrs. Ellington and McKinney.

The fifth ward nominated new men, Messrs. John Lewis and E. E. Bain. The sixth ward nominated new men, Messrs. J. W. Merritt and W. D. Mendenhall.

All the wards except the third, endorsed the present incumbent, J. J. Nelson, by acclamation. In the third no action was taken as to candidate for mayor.

Tonight the general convention will be held in the court house to ratify the action of the ward meetings.

The first ward meeting passed resolutions declaring itself in favor of the following improvements:

1. Laying of a sewer main from the Southern railroad to the outlet below Proximity mills, and from the court house along West Market street, to connect to main sewer.
2. The permanent macadamizing of West Market street, from the corner of Ashe to Cedar street.
3. For more electric lights in the first ward.
4. That the city should own its own water and lighting plants.

## James Young.

That handsome, young and talented actor, Mr. James Young, will once again appear before the people in the well known play of "David Garrick." Each year Mr. Young's talents as an actor have spread wider and wider throughout the universe and it will not be long before he will be recognized as one of the foremost actors of the day.

It is understood that certain New York parties, who have recognized his remarkable talents are anxious to engage this young actor for a tour next season throughout England and the continent, in which case we are afraid it will be a long time before the people of Greensboro will have an opportunity of seeing this talented and pleasing young actor again.

The play of "David Garrick" is one of the most humorous and laughable on the stage today, especially when Garrick meets the queer people at Trigo's dinner, and in the third act, when Garrick breaks up the dinner party through his drunkenness, the audience is kept in one continued uproar of laughter.

## Early Morning Fire.

Fire was discovered this morning about five o'clock in the rear of the Sample Brown Mercantile company's store. The fire was spreading rapidly when discovered and several goods boxes and Mr. Brown's barn were burning. The alarm was turned in immediately and the flames soon extinguished. Had the fire had half an hour's headway the entire business part of town would most probably have been burned.

The origin of the fire is not definitely known. It is reported that two boys smoking cigarettes were seen running from that direction just before the fire was discovered. There is a probability however that the fire started from a pile of ashes thrown near the barn.

## Strawberries.

The Ladies Aid Society of the First Presbyterian church, today and tonight will serve strawberries and all kinds of ices and creams at the empty store room in the Benbow, recently occupied by Ruben, the tailor. ## DEATH OF SOL C. WEIL.

He Died Yesterday and Will Be Buried in Wilmington.

A dispatch from Wilmington announces the death of Hon. Sol C. Weil, at one o'clock yesterday in New York city. Mr. Weil died of catarrh of the stomach. Mr. R. I. Katz left last night for New York to accompany the body to Wilmington where it will be buried.

Mr. Weil was born in Charlotte, but soon afterward his parents moved to Wilmington, where he lived until he moved to New York city. Mr. Weil began the practice of law as a partner Major C. M. Stedman, who was at one time Lieutenant-Governor of North Carolina. Mr. Weil had relatives in Greensboro, being a nephew of Mr. E. R. Fishblate.

Although Mr. Weil had been in New York for only a short time he soon became one of the most prominent lawyers in the city. He was an especially brilliant man, and a lawyer of unusual ability. His death is particularly sad as he had prospects of a long and brilliant life of usefulness before him. He was assistant United States District Attorney under President Cleveland's last administration. He was elected last fall to represent the 19th district in the New York general assembly. This district has always been a republican stronghold and the democrats are usually defeated by a majority of from 6,000 to 7,000. The fact that Mr. Weil carried this district for the democrats and ran ahead of his ticket attest his popularity in New York.

A host of friends in this city and throughout the state mourn the untimely end of this brilliant young lawyer.

SUFFERING AT SANTIAGO. Kingston, Jamaica, April 29—Over four hundred Cuban, British and American refugees arrived this morning at Port Antonio from Santiago. It is said the inhabitants can exist only one week longer. Soldiers have seized all the food supplies. Spanish soldiers are greatly disheartened by intense suffering and disease. Torpedo boats in the Santiago harbor have been abandoned.

WILL REACH MANILA SUNDAY. Madrid, April 29—The United States fleet is not expected to reach Manila until next Sunday. The Spanish fleet, which has been divided, has been reinforced by a large auxiliary cruiser.

POOR OPINION OF OUR NAVY. Madrid, April 29—No disturbances are reported. The newspapers continue their work of belittling the United States fleet and the work of our sailors.

NO NEWS AT ST. VINCENT. St. Vincent, via Cape Verde Islands, April 29—Within an hour after the cruisers sailed from here this morning, the three torpedo boats, Airlette, Razoe and Azore, with armed transports San Francisco and Cuadde Cadiz left the port going in a northerly direction. It is understood that the destination of these boats is Grand Canary. Provisions are becoming scarce and the consequences are that large quantities of provisions are being purchased for the fleet. No news of any declaration of war has been received.

Willing to be Drenched. South Carolinian by birth North Carolinian by necessity; American by citizenship, and will offer my services to Uncle Sam to go to Cuba and fight, and if necessary be drenched in human blood in defence of the stars and stripes that protect me.

## A Peculiar Use of a Check.

The people's National Bank of this city, is a United States depository, and as the revenue office cannot take checks, the bank attends to ordering stamps for its customers. We learn from the revenue office this morning that a gentleman from the country recently sent the bank \$11 for a brandy stamp, but neglected to enclose the necessary papers therewith. The bank therefore could not send the stamp and returned him a cashier's check for the amount asking for the papers to be sent back with it. Upon receiving the check the countryman immediately pasted and tacked it securely upon the barrel of brandy and sent it on its mission. When he found his error this morning he told Mr. Reynolds that "he never had seed a white stamp before and thought it darned curious, but guessed she'd go a' right."—Winston Journal.

## Meeting at Baptist Church.

There is an increasing interest in the meeting at the Baptist church. A large congregation was present last night and they listened with deep interest to a strong sermon on salvation. At the close of the sermon a number manifested an interest in their souls. The Bible reading yesterday afternoon on "Christ our Priest" was very helpful.

Uncle Sam promptly kicked them out into kingdom come.

The Temerario also has not parted her anchor chain up to the present.

Portugal's neutrality seems to be of about the same proof as Spain's former friendship.

At no time have the Spanish ships dragged their anchors in their anxiety to get away from the Cape Verde Islands.

If the Statesville militiamen are not better marksmen than their pair of duellist colonels, the Spaniards will have little reason to hide behind breastworks.

With Castellar, Don Carlos, Weyler, Campos and Sagasta all striving to grasp the supreme power in Spain, the Gods should have a pretty lively time, after the deluge.

The republican party levied an income tax as a war measure in the conflict of 1896. It proposes to do so again in 1900. It is useless therefore to ask it to do so now.

Judging by the number of Spanish ships seen in various quarters of the world by veracious sea captains, she must have had the Bay of Biscay covered with cruisers that nobody knew anything about.

The man who is of the opinion that all the fools take to the woods in time of war, should read the many infallible suggestions for taking Havana gratuitously offered to the war and navy departments.

In lieu of other employment and to keep his tongue from stiffening with disuse, Senator Mason might be induced to produce a counterblast to the proclamations of Blanco and the governor of the Philippines.

The most ubiquitous thing in the world thusfar, with the possible exception of the liar and the sea serpent, is the Spanish cruiser Alfonso XIII. We are solemnly assured that she is at Havana, on the high seas, at Porto Rico and at the Cape Verde Islands all at the same time.

The owner of the Holland submarine torpedo boat has offered to run into Havana harbor and throw a dynamite bomb into Morro Castle if the government will then buy his craft for \$175,000. That is a very business like proposition. The government might do worse than to accept it.

The policy of this government with reference to the insurgents seems to be to help those who help themselves. This is not at all a bad policy. The insurgents have said a good deal, off and on, about what they would do if they only had arms and ammunition. The consignment of 50,000 rifles and some machine guns to be sent to them soon will determine whether they have inherited the Spanish love for doing aerial battle.

Lieutenant Carranza has challenged General Lee to meet him on the field of "Spanish honor." General Lee is not sufficiently ethereal to stand on a vacuum and fight a duel.

The only first-class battleship in the Spanish navy is the Pelayo. The latest reports say that she is cruising in the Mediterranean. This may be taken as evidence either that the Spanish squadron at Cape Verde does not mean to fight or that the Spanish navy is being sadly mismanaged. To risk a decisive naval battle on this side of the Atlantic while her most formidable ship is lumbering around in the Mediterranean after yachts that can show her a clean pair of heels is a supposition a little too much for even Spanish strategy.

## WADE HAMPTON SPEAKS.

If There is One Man Lacking He Will Be the Man.

Charleston, S. C., April 28.—At a meeting of Confederate veterans of South Carolina, in annual convention here, General Wade Hampton spoke and caused the wildest enthusiasm by the following reference to war with Spain:

"My old comrades, we know what war is. I do not hesitate to say that I regret the one upon which we are now entering. But you are South Carolinians; you are sons of the men who have shed immortal glory on the Palmetto flag in the past, and I would rather die than think that South Carolina would not respond to the call made upon her for volunteers. And, old as I am, I can still ride horseback and wield a sword; and if her quota is not filled, if there is one name lacking to make it full, I myself will volunteer. This is our country, and it is our duty to make it the champion of freedom for all time to come."

## Spain's Investigation a Farce.

Washington, April 27.—A telegram, made public today, shows that Spain is guilty of complicity in the destruction of the Maine, and that the court of inquiry appointed by the Spanish government was a dummy affair.

The message, which was sent by the Spanish government to the investigating judge, is marked "confidential," and shows that the board appointed to investigate the Maine was for purposes of deception, as the telegram explains that the report must be prepared to precede the American report, and thereby forestall public opinion regarding the horror.

## Stands at the Head.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for consumption, coughs and colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at C. E. Holton's drug store.

Mr. J. T. Harris, Proprietor Harris Lithia Springs:

Dear Sir—While it is contrary to my custom to give testimonials to remedial agents, I feel free to attest to the efficacy of the Harris Lithia Water (when used in large quantities) in the rheumatic and gouty diatheses; in engaged states of the kidneys; in inflammation of the bladder, and in all cases where there is an excess of solids in the urine. Yours respectfully,  
GEO. HOWE, M. D.

Mr. J. T. Harris:

Dear Sir: I have found the use of the water from your Lithia Spring in South Carolina so efficacious in the case of a young lady patient of mine, who has suffered for years with diabetes, with all its different attendants, that I want to add my testimonial to the many you already have. The patient I refer to has used the water freely at home for scarcely a month now, with more beneficial results than from months spent at the different noted lithia springs in different parts of the United States, besides long-continued use of the same waters at home. Other

of my patients and friends are now using the water with best results. I cordially recommend it to all suffering from similar diseases.  
Very respectfully yours,  
THOMAS S. POWELL, M. D.,  
President Southern Medical College, Atlanta, Ga.

## TANGLED UP IN MINE CABLES.

Marvelous Escape of Steamer From Destruction in Harbor.

Washington, April 28.—In answer to one of many complaints about the closing of mined harbors after sunset the War department directs attention to a significant fact. A vessel approaching Baltimore the other day got her screw entangled in the cable that had been laid to connect the submarine mines with the shore battery. The cable was dragged about seven hundred feet before it became disconnected from the screw.

The experts and officials are only astonished that in this and one or two similar instances elsewhere no disastrous explosions of torpedoes or mines have as yet taken place. They deem their latest precautions decidedly necessary.

# Harris Lithia Water of South Carolina.

Contains more Lithia than any other Lithia Spring Water on the market. If the Harris Lithia Water is not superior to any other water on the market, do you think the following noted physicians would state that it is? They have no interest in Harris Lithia Water:

Mr. J. T. Harris, Proprietor Harris Lithia Springs:

Dear Sir—While it is contrary to my custom to give testimonials to remedial agents, I feel free to attest to the efficacy of the Harris Lithia Water (when used in large quantities) in the rheumatic and gouty diatheses; in engaged states of the kidneys; in inflammation of the bladder, and in all cases where there is an excess of solids in the urine. Yours respectfully,  
GEO. HOWE, M. D.

Mr. J. T. Harris:

Dear Sir: I have found the use of the water from your Lithia Spring in South Carolina so efficacious in the case of a young lady patient of mine, who has suffered for years with diabetes, with all its different attendants, that I want to add my testimonial to the many you already have. The patient I refer to has used the water freely at home for scarcely a month now, with more beneficial results than from months spent at the different noted lithia springs in different parts of the United States, besides long-continued use of the same waters at home. Other

of my patients and friends are now using the water with best results. I cordially recommend it to all suffering from similar diseases.  
Very respectfully yours,  
THOMAS S. POWELL, M. D.,  
President Southern Medical College, Atlanta, Ga.

Asherville, N. C., April 20, 1893.  
An extended clinical use of the Harris Lithia Water prompts me to the statement that I regard it as one of the best, if not the best, Lithia Waters known to the profession. In the condition of Phosphatic Urine its action is marvelous. Its use in the rheumatic and gouty diseases affords me more comfort than either the Buffalo or Londonberry waters.  
Very truly yours,  
JOHN HEY WILLIAMS, M. D.

kidney and bladder troubles. Therefore take pleasure in recommending it. Respectfully,  
JAS. F. ALEXANDER,  
President Board of Health

Mr. J. T. Harris:

Dear Sir—It gives me pleasure to say that I have been using your Lithia Water for several months past, and that I believe it to be one of the best Lithia Waters that I have come in contact with. Yours truly,  
EST. JOHN,  
Vice President

Charleston, S. C., Sept. 20, 1893

Mr. J. T. Harris:

My Dear Sir—I am constrained to send you this testimonial of the efficacy of the Harris Lithia Water. The value of the testimonial may be enhanced from the fact that it goes to you unselected. As a friend of humanity, I feel bound to withhold my knowledge of its virtues no longer. I have been using the water for more than a year with marked benefit. To any one troubled with kidney disorder

Baltimore, June 24, 1896  
J. T. Harris, Esq. Harris Springs, S. C.:  
Dear Sir—I have been using Harris Lithia Water for some time, and I will say to you that it is my opinion that the Harris Lithia Water is by far the best Lithia Water that I have ever used, and that it has done me a great deal of good, and I think that it is a most valuable remedy.  
R. C. HOFFMAN,  
President S. A. L. R.

Atlanta, Ga., Feb. 24, 1897.  
Mr. J. T. Harris, Harris Springs, S. C.:  
Dear Sir—I have found Harris Lithia Water an exceedingly valuable remedy for persons suffering from

The waters of the Lithia Springs are odorless, free from color, with a pleasant saline taste, rather palatable. When taken in considerable quantity, they do not nauseate, purge or produce any feeling of discomfort. I find from the analysis of the waters, they contain Chloride Sodium, Carb. Potash, Carb. Soda, Carb. Lithia, Carb. Iron and Sulphate Magnesia. These waters act directly on the mucous coating of the stomach and alimentary canal; they are powerfully alterative and tonic. They are everything to inflamed or irritated surfaces. They act upon the blood, changing it from acid to alkaline. In indigestion, catarrh of the stomach and gastralgia, supplemented with a proper diet, they

are a certain cure. The action upon the kidneys is marked. The sodium, potash, soda, lithia, are the best solvents of uric acid; all calculi of acid character, whether literary or cystic, are steadily dissolved. I am confident that the profession will find it very useful in cases where this class of water is required.  
J. Q. WILBUR, M. D.  
Walterboro, S. C., April 10, 1892.

It is the remedy par excellence. I prefer it to the Buffalo Lithia Water. Very truly yours,  
A. C. KAUFMAN,  
President Vanderbilt Benevolent Association of Charleston, S. C.

Chester, S. C.

Dear Sir—For the past six months I have been using Harris Lithia Water with the most excellent results, where I have been able to get my patients to drink a sufficient quantity of it daily. The carbonated has no equal in gastric disturbances. It is an excellent table water. It is a pleasant laxative and is a sure cure for flatulent dyspepsia.  
S. M. DAVEGA, M. D.

Atlanta, Ga., April 20, 1897.  
I have used for some time Harris Lithia Water in my family, and also with my patients, and find it the best water I ever used in catarrhal condition of the ureters and bladder. It is also a good diuretic water.  
G. G. ROY, M. D.

After a long and varied experience in the use of mineral waters from many sources, both foreign and domestic, I am fully persuaded that the Harris Lithia Water possesses efficacy in the treatment of affections of the

Graham, N. C., July 16, 1897.

Oneida Cotton Mills:

About two and a half years ago my  
little boy about 4 years, and my little  
girl about two years, each had an en-  
largement of the glands about the  
ears. The trouble appearing on each  
about the same time, I was inclined to  
think it mumps, but soon observing  
to the contrary, I called in the doctor,  
who said the trouble came from colds,  
prescribing accordingly, yet swelling  
continued to grow until each had to  
hold for the lance, the little boy hav-  
ing been lanced in three places and at  
three times, his face at times looking  
alarming. The nature of the trouble  
was termed one thing by one and an-  
other thing by another. This, how-  
ever, did not concern me, as I was  
looking for a cure, and Mrs. Joe Per-  
son's Remedy having been called  
to my attention so often and so favor-  
ably, I dropped the treatment from  
the doctor and commenced to use Mrs.  
Joe Person's Remedy. To say that the  
results obtained have been satis-  
factory is putting it in mild terms, the  
children, and especially the little boy  
being entirely well, yet wearing the  
scars that will ever keep fresh in my  
memory the merits of Mrs. Joe Per-

## HOT-BED OF TREASON

Discovered in California—Letter Ad-  
dressed to Sagasta.

Washington, April 28—A letter ad-  
dressed to "Senor Sagasta, Madrid,  
Spain," was seized by the postoffice  
department today.

The letter was written by a woman,  
and it came from Santa Cruz, Cal.

It gave a detailed account of the  
condition of the Western coast de-  
fences, stating where the guns and  
mines are located, and how to land so  
as to avoid danger.

The writer advised an attack on  
Monterey, where she states is a small  
force and poor defences.

The woman also told Sagasta that  
Spain would find aid from California  
sympathizers.

The administration officials held a  
long conference regarding the letter.

It is understood to have been de-  
cided to have the woman arrested at  
once, and that other arrests will soon  
follow.

It is considered more than a coinci-  
dence that a few days after this letter  
was posted the powder works at Santa  
Cruz should have mysteriously been  
exploded.

The officials suspect Spanish Monks  
about the colleges in California, and  
are convinced that a hot-bed of treason  
is located there.

## War Munitions From Abroad.

New York, April 27—The steamer  
Georgian, which arrived today from  
London, brought 484 cases of quick-  
firing ammunition, 35 cases of quick-  
firing guns, 20 cones (protected), one  
pillar, four shields, all shipped by  
Vickers, Son & Maxim, and consigned  
to the commandant of the Brooklyn  
navy yard, and five cases of Maxim-  
Nordenfildt quick-firing gun field car-  
riage timber and accessories for West  
Point.

## Baseball Yesterday.

At Cincinnati—Cincinnati 5, Cleve-  
land 3.  
Other games postponed on account  
of rain.

## General News in a Nutshell.

Justice Harlan, like ex-Presidents  
Harrison and Cleveland, thinks that  
this is not the time to throw mud at  
the Administration. In reply to a re-  
porter who asked for his opinion on  
the situation he said: "I think the  
man we have in the White House is a  
true American, and for further infor-  
mation I refer you to the daily papers.  
Good evening."

Professor Witten Davies, of Eng-  
land, the lecturer on occult subjects,  
is a scholastic phenomenon. He was  
a coal miner in his youth; at twenty-  
one he was ready for college, and now  
he reads German, Hebrew, Syriac and  
Arabic with the ease of an expert.

Prince Albert, of Belgium, who ar-  
rived at San Francisco on Sunday  
night last, and is now stopping at the  
Palace Hotel, has met with as cordial  
a welcome from the Westerners as was  
accorded him during his sojourn in  
Philadelphia and New York.

Prof. Frank H. Giddings, of Colum-  
bia University, defines six causes of  
poverty. They are "refusal to work;  
of employment, struggle to rise, un-  
equal distribution of accident, wrong  
public policy and sentimental charity."

In the flag manufacturing depart-  
ment of the Brooklyn navy yard there  
is an old sailor whose duty it is to in-  
spect the finished emblems and to pass  
upon their quality. He is noted for  
his careful requirements and not the  
slightest irregularity in dimensions  
nor defect in materials escapes his eye.

A professional beggar of Hongkong  
has just built a fine three-story tea  
house outside the south gate of the  
city. As the only three-story building  
in or about Hongkong, it is an object  
of great pride to the natives, whose  
charity helped so largely in its erec-  
tion.

Careless or impolite editors are not  
tolerated in China. The Peking Ga-  
zette announces that an editor of that  
city, who in referring to certain dead  
Chinese rulers had omitted to give  
their full titles, has just had his pun-  
ishment commuted from being slowly  
sliced to pieces to simple decapitation.

## WHY MATANZAS WAS SHELLED.

Other Fortifications Likely to Re-  
ceive a Like Dose Soon.

Washington, April 28—When Cap-  
tain Sampson directed the fire of the  
big guns of the New York, the Puritan  
and the Cincinnati against the de-  
fenses of Matanzas yesterday after-  
noon he did not exceed his instruc-  
tions not to bombard the Cuban cit-  
ies.

The engagement of the Matanzas  
batteries was the result of a sugges-  
tion made to Captain Sampson by the  
navy department several days  
since.

He had been instructed to keep away  
from the formidable fortifications, so  
that the efficiency of the squadron  
would not be impaired, while Spain  
kept its squadrons at St. Vincent and  
Cadiz intact, but it was not intended  
that Captain Sampson should preserve  
a "dignified silence" against the bark-  
ing of coast defense guns.

Yesterday's little engagement was  
the sequel to the suggestions similar  
to that at Matanzas every time a  
shot is fired at the United States ves-  
sels.

The navy department has grown  
tired of allowing the Spanish bat-  
teries to dare a fire from our ships.

While the bombardment of Havana  
may occur sooner than was expected,  
it is the present policy to starve out the  
Cuban capital.

With the batteries at Matanzas dis-  
abled, there will be less work for Cap-  
tain Sampson when it comes to pro-  
tecting the landing of a military ex-  
pedition, if one is sent to Matanzas,  
as now seems immediately probable.

## Something to Know.

It may be worth something to know  
that the very best medicine for restor-  
ing the tired out nervous system to a  
healthy vigor is Electric Bitters. This  
medicine is purely vegetable, acts by  
giving tone to the nerve centres in the  
stomach, gently stimulates the liver  
and kidneys, and aids these organs in  
throwing off impurities in the blood.  
Electric Bitters improves the appetite,  
aids digestion, and is pronounced by  
those who have tried it as the very best  
blood purifier and nerve tonic. Try it.

**Notes of  
The Prowler**

War, grim-visaged and gruesome, is banging on the doors of our homes, calling the young and vigorous, the flower of the land, to leave their quiet abode, where verdant vines of peace and protection cluster in graceful arches over the doorway, to lead the rough and dangerous life of soldiers. And wherever "Old Glory" waves in the gentle breeze or flaps in the howling storm the brave boys will follow. There's patriotism enough to back the determination that the stars and stripes shall never trail in the dust.

That the "course of true love never runs smooth" is again verified by the following incident: One night recently a young ardent of this city hired a team and drove out to call on a beautiful country maiden. The wind was high and the clouds were dark. The young man started home at a late hour and got lost. Hitching the horse to a convenient sapling he started back to "find himself" and locate the Greensboro road. After weary tramping and diligent searching he discovered it. Then he began another long and tiresome search—this time for the horse and buggy. After many hours he reached the city just as the shadows of night began to disappear before the gray light of dawn in the east.

**Our  
Opening Day**

Was a most emphatic success. It was not an opening simply in name, where a handful of old, decrepit or discarded styles were shown, but it was a glorious opening. Every article fresh as the morning dew, and it will go on tomorrow and all the balance of the week with a vigor, with an earnestness created only by bargains superabundant beyond any ever displayed in this city. Our display of

**New Silks, Organdies,**

**Lawns, Laces,**

**etc., etc.**

was voted by every lady who attended as the most successful, the most novel and original display ever shown in Greensboro.

All those fetching swaggers and up-to-date styles that would cost double everywhere else, are here tomorrow and all the balance of the week.

We shall never deviate from the policy originally laid down of handling only the best goods.

We know to a certainty that true success must be based upon the substantial rock of quality, and to handle nothing but the best would never satisfy either ourselves or the public.

But such universal popularity as our store has attained in so short a time is not based solely upon carrying the best merchandise, we make it a point to sell at small margins of profit, never making a price on an article until we know it is the lowest figure at which that article can be sold. The public will soon learn to know this.

We heartily thank the people of Greensboro for the hearty welcome they have extended us.
